

# A smart, seamless, and customer-friendly digital billing & menu solution for modern restaurants.

In today's fast-paced dining world, customer convenience is key. Mr. Bill brings together powerful features like digital menus, self-service kiosks, and instant payments—all in one simple, plug-and-play solution. Whether you manage a single outlet or multiple branches, Mr. Bill ensures smooth operations and a delightful dining experience.

## Everything is information

### Digital Menus

Instantly accessible on tables via QR codes

### Self-Service Kiosks

Reduce wait times, empower customers

### Integrated Payments

Fast, secure, and hassle-free checkout

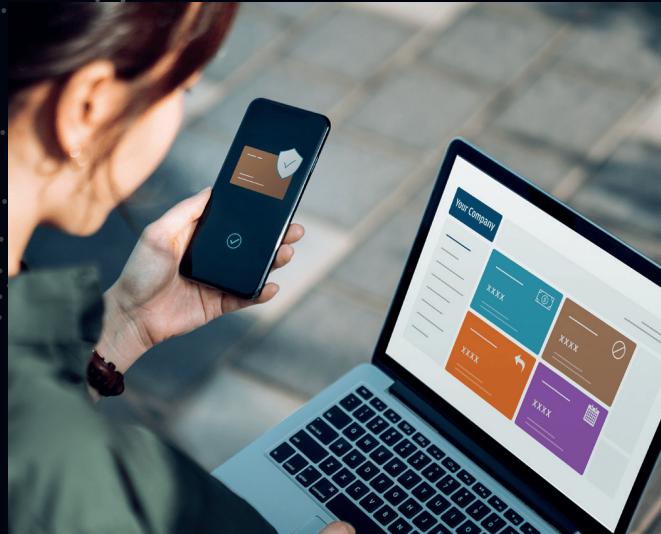

### Multi-Branch Management

Stay in control, everywhere

## Why Mr. Bill?

Mr. Bill isn't just another POS system—it's a complete restaurant experience solution. Designed for simplicity, scalability, and speed, it helps you serve more customers, improve efficiency, and boost revenue.

## Table Menu via QR Code

- Contactless ordering directly from the customer's phone.
- Safe, hygienic, and convenient.

## Payment Gateway Integration

- Multiple payment modes supported.
- Seamless checkout for faster table turnover.

## Benefits for Your Business

- ⌚ Faster table turnover & reduced wait times.
- 🛠️ Hassle-free management for staff and kitchen.

## Plug & Play Menu

- Set up in minutes, no complex training required.
- Easily update dishes, prices, and offers.

## Kiosk Enabled

- Reduce queue times with customer self-ordering kiosks.
- Increase upselling opportunities through smart recommendations.

## Multi-Branch Mode

- Centralized menu and data management.
- Track sales and updates across all outlets in real time.

## Smart Menu Synchronization

Update your main menu once, and see changes reflected instantly across kiosks and digital menus.

Increased sales through better customer engagement.

Scalable solution for single outlets and chains alike.

With Mr. Bill, your restaurant isn't just serving food—it's serving convenience, innovation, and delight.
